FITBUDDY AI Fitness Plan Generator	**TEAM PROJECT** Customer Journey Map

Customer Journey Map

Date	01 October 2026	**Team ID**	SWTID-2026-2430
Project Name	Team Enrollment Confirmation - FitBuddy – AI Fitness Plan Generator using Gemini Models	**Maximum Marks**	2 Marks
Team Members	Divya.D, Deepika.M, Dharani.T, Divya shree.R, DivyaDharshini.V	**Journey**	Enrollment to plan confirmation

Purpose: Map the user's experience from entering fitness details to receiving a generated plan and confirming or refining it. The stages reflect the FitBuddy project workflow described in the project document.

Phase of Journey	**STAGE 1 Enrollment & Input**	**STAGE 2 Plan Generation**	**STAGE 3 Confirmation & Feedback**
Actions ***What does the customer do?***	• Opens FitBuddy home page • Enters name, user ID, age and weight • Selects goal and workout intensity	• Submits the form • Waits while AI creates a 7-day plan • Reads the workout and nutrition tip	• Reviews the generated plan • Confirms it meets their needs • Submits feedback if changes are needed
Touchpoints ***Where do they interact?***	• index.html input form • Goal and intensity fields • Generate Plan button	• FastAPI /generate-workout route • Gemini Pro and Gemini Flash • result.html plan display	• result.html feedback form • FastAPI /submit-feedback route • Updated plan confirmation
Customer Thoughts ***What are they thinking?***	• “What details should I enter?” • “Which goal fits me?” • “This should be easy to use.”	• “Will this plan fit my goal?” • “Are the steps clear?” • “What should I do each day?”	• “Does this plan suit my needs?” • “Can I request a change?” • “I want a plan I can follow.”
Customer Feelings ***How might they feel?***	• Curious • Hopeful • Possibly unsure about inputs	• Interested • Motivated • Impatient if generation is slow	• Reassured when clear • More confident after changes • Frustrated if feedback is unclear

Note: Feelings and thoughts are reasonable journey-map assumptions for planning and should be validated with actual users if user testing is conducted.

FITBUDDY AI Fitness Plan Generator	TEAM PROJECT Customer Journey Map

Process Ownership & Improvement Opportunities

The team responsibilities below are assigned in the exact order of the names provided.

Journey Stage	Process Ownership / Team Member	Opportunities for Improvement
Stage 1: Enrollment & Input	**1. Divya.D** Own the enrollment flow and user-input requirements. Check that name, user ID, age, weight, fitness goal and intensity are captured clearly.	• Add clear labels and short field guidance • Validate required fields before submission • Explain low, medium and high intensity options
Stage 2: Plan Generation	**2. Deepika.M** Own the AI plan-generation flow. Coordinate the Gemini workout-plan generation and nutrition/recovery tip output.	• Show a loading message while the plan is generated • Format the 7-day plan for easy reading • Display a clear notice if AI generation fails
Stage 3: Feedback & Revision	**3. Dharani.T** Own feedback collection and revised-plan flow. Check that feedback is connected to the correct user and plan.	• Give examples of useful feedback • Confirm when an updated plan is saved • Keep original and revised plans distinguishable
Interface & Confirmation	**4. Divya shree.R** Own the user-facing pages and confirmation experience using HTML, CSS and Jinja2 templates.	• Keep the layout readable on mobile screens • Use consistent buttons and confirmation messages • Make errors and next steps easy to understand
Data, Admin View & Testing	**5. DivyaDharshini.V** Own database checks, admin-view verification and end-to-end testing across enrollment, generation and feedback.	• Verify user and plan records are saved correctly • Test the /view-all-users page • Run a complete test from enrollment to plan update

Success Measures

Enrollment	All required user details are accepted and validated.	**Plan output**	A readable 7-day workout plan and a relevant nutrition/recovery tip are shown.
Confirmation	The user can understand that the plan has been generated or updated.	**Data integrity**	User details and original/updated plans remain accessible in the database/admin view.

Conclusion: The journey map outlines how a FitBuddy user moves from enrollment to AI-generated fitness guidance and plan confirmation. Clear ownership across the five team members helps coordinate the input form, AI services, feedback process, interface, database and testing.
