Data Flow Diagram

Date	01 October 2026
Team ID	SWTID-2026-2430
Project Name	Team Enrollment Confirmation - FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks	2 Marks
Team Members	Divya.D, Deepika.M, Dharani.T, Divya shree.R, DivyaDharshini.V

Data Flow Diagram

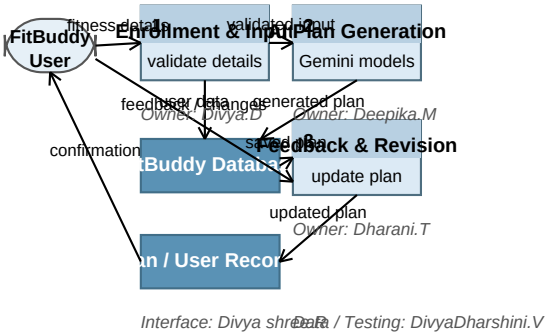
The DFD shows how data moves through FitBuddy from user enrollment and fitness input, through AI plan generation, to feedback, plan revision and confirmation. The flow follows the project journey described in the uploaded Customer Journey Map.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	**External Entity**	A person or system outside the project that sends or receives data, such as the FitBuddy User.
Rectangle with numbered header	**Process**	An activity that transforms incoming data into outgoing data, such as enrollment, plan generation or feedback.
Solid rectangle	**Data Store**	A place where user details, generated plans and revised plans are kept for later use.
Labeled arrow	**Data Flow**	The movement of data between entities, processes and data stores, labeled with the information being passed.

Example-Style FitBuddy DFD

FitBuddy Data Flow Diagram



Team Work Assignment

No.	Team Member	Assigned Work
1	Divya.D	**Enrollment & Input:** Own the enrollment flow and user-input requirements; check name, user ID, age, weight, fitness goal and intensity. Add clear labels and validate required fields.
2	Deepika.M	**Plan Generation:** Own the AI plan-generation flow; coordinate Gemini workout-plan generation and nutrition/recovery tip output. Handle loading, readable 7-day plan format and generation errors.
3	Dharani.T	**Feedback & Revision:** Own feedback collection and revised-plan flow; connect feedback to the correct user and plan and confirm updated-plan saving.
4	Divya shree.R	**Interface & Confirmation:** Own user-facing HTML, CSS and Jinja2 pages; keep layouts readable on mobile and make confirmation, errors and next steps clear.
5	DivyaDharshini.V	**Data, Admin View & Testing:** Own database checks, admin-view verification and end-to-end testing from enrollment through plan update.

Success Measures: Required user details are accepted and validated; a readable 7-day workout plan and relevant nutrition/recovery tip are shown; the user can understand when a plan is generated or updated; user details and original/updated plans remain accessible in the database/admin view.
