Empathy Map

Date	01 October 2026
Team ID	SWTID-2026-2430
Project Name	Team Enrollment Confirmation - FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks	4 Marks

Empathy Map
Create an empathy map to understand the FitBuddy customer/user from four perspectives — what they Say, Think, Do and Feel — in relation to personalized fitness planning. The map is based on the project's documented user scenarios and features.

SAYS **• "I want a workout plan for my fitness goal."** **• "I need a plan that matches my workout intensity."** **• "I want to change my plan based on my feedback."**		**THINKS** **• "Will the plan be personalized for me?"** **• "Can I get useful nutrition or recovery tips?"** **• "Can I update the plan when my needs change?"**
	PERSONA NAME **FitBuddy User** **Role: Fitness User**	
DOES **• Enters name, age, weight, goal and intensity.** **• Views the generated 7-day workout plan.** **• Submits feedback to revise the plan.**		**FEELS** **• Motivated by a structured plan.** **• Supported by personalized workout guidance.** **• Confident when the plan adapts to feedback.**

Team Work Allocation — in Name Order

S.No	Team Member	Assigned Work
1	Divya.D	Gemini AI integration – model selection, workout generation, plan updates and nutrition tips.
2	Deepika.M	FastAPI backend – user input processing, API calls and route handling.
3	Dharani.T	Database – SQLite/SQLAlchemy, user records and original/updated plan storage.
4	Divya shree.R	Frontend – HTML, CSS and Jinja2 templates for input, results, feedback and admin view.
5	DivyaDharshini.V	Testing & deployment – local setup, API verification and overall integration support.
